

**Know before**  
**you go.**

## 1 THE PROBLEM

# Finding out what a local service costs is broken

### Time

Hours lost hunting across Instagram, Google, sites and apps.

*"30 min a day, for days."*

### Surprise

The price on the day doesn't match what was listed.

*"Different when I arrived."*

### Uncertainty

No reference point for whether it was a fair price.

*"Cheap or expensive? No idea."*

2

## THE OPPORTUNITY IN SPAIN

# 153,539+

the number of people in Spain who search the cost of prices across services  
(drycleaning, veterinary services and hair dressing)

# Power for customers. A megaphone for businesses.

## For businesses

- A megaphone for good value — vets, dry cleaners, mechanics
- Fewer “just asking the price” calls
- Your own data on what competitors charge
- We seek out those who want transparency

# We aggregate what's scattered, extract what's invisible

01

## Aggregate

Prices from 6+ permitted sources — Booksy, Fresha, Treatwell, Koibox and own sites — into one structured format.

02

## Extract

For shops with no price online, our AI reads the price board straight from public Google Maps photos, in seconds.

03

## Verify

Customers confirm “correct / not”, add a receipt and rate fairness, earning points. Every price is dated.

04

## Sustain

AI assists with estimates and seeks prices when crowdsourcing lags. AI-native from day one.

Primarily on the web; 63% fragmented across 6+ platforms.

## 6 BUSINESS MODEL

### Business model & money flows

# Lead where price is opaque and the stakes are real

- |    |                                      |                                                                              |
|----|--------------------------------------|------------------------------------------------------------------------------|
| 01 | <b>Vets, dry cleaning, mechanics</b> | Lead verticals in Valencia — higher cost, opaque pricing, real consequences. |
| 02 | <b>All of Valencia</b>               | Then every local service across the city.                                    |
| 03 | <b>Across Spain</b>                  | Replicate the Valencia playbook, city by city.                               |
| 04 | <b>Harder services</b>               | AI-driven estimates for quote-based, tailored work.                          |

**We first tested with barbershops in Ruzafa.** Feedback showed the pain is sharpest where prices are higher and harder to find — so we lead with vets, dry cleaning and mechanics, keeping barbers as a proven wedge.

**Already mapped in Valencia:** 172 vets · 527 mechanics · 526 dentists · 364 physios · 334 nail salons · 227 massage · 1,272 barbershops.

## WHY US

# Each rival covers a slice. Only we make prices comparable

|                                   | cuanto cuesta | Google Maps | Booking apps | Word of mouth | Páginas A. |
|-----------------------------------|---------------|-------------|--------------|---------------|------------|
| See prices before you go          | ✓             | partial     | ✓            | —             | —          |
| Compare providers side-by-side    | ✓             | —           | partial      | —             | —          |
| Covers shops with no online price | ✓             | —           | —            | —             | —          |
| Price verified & dated            | ✓             | —           | partial      | —             | —          |
| “Is this fair?” benchmark         | ✓             | —           | —            | —             | —          |
| No account or booking needed      | ✓             | ✓           | —            | —             | ✓          |
| Independent — not pay-to-rank     | ✓             | ✓           | —            | —             | partial    |

✓ yes — no partial = limited (booking apps show prices only for businesses that chose to list)

# The signal is already there

25%

of people we interviewed avoided a service they couldn't find the price for

37%

of the local shops we audited show no price online at all

7,126

vet centres in Spain — revenue up 9.2% in 2024

75%

of shoppers research price online before or while buying

## A big, fragmented market

Spain has 7,126 veterinary centres (revenue up 9.2% in 2024), ~130,877 hairdressing & beauty businesses, and a dry cleaner in nearly every town centre. 39% of consumers have switched provider over hidden costs; 50% pick transparency over the lowest price.

# €200K pre-seed

To prove it in Valencia, then scale across Spain.

## USE OF FUNDS

- Keep validating & expanding the price data — more neighbourhoods and categories
- Build the AI extraction & crowdsourcing engine, with paid / AI fallback for coverage
- First sales — convert Valencia businesses into paying subscribers

---

**Be the go-to place when you want to know the price of anything.**
